

Café Solar

Sustainably Grown & Processed

100% Arabica Coffee

Fair Trade Certified™
Certified Organic

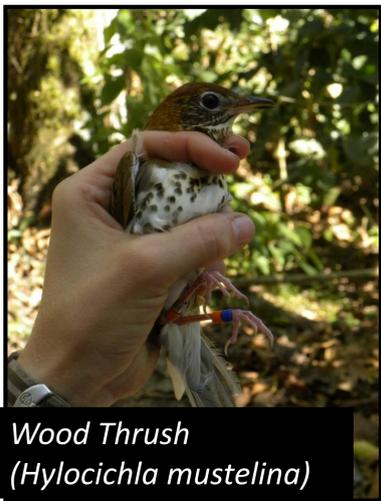

Fair Trade Cooperative, COMISUYL,
in Subirana, Yoro, Honduras

Wood Used to Fuel Conventional Coffee
Driers throughout Central America

Joint Research, UMass & the National
Autonomous University of Honduras

Wood Thrush
(*Hylocichla mustelina*)

The Future of Coffee

- Eliminates use of firewood to dry the coffee harvest, helping to preserve tropical forests
- Processed using renewable energy technology manufactured in Massachusetts
- Supports the introduction of biodiversity-friendly agroforestry systems and student research
- High-quality coffee—Strictly High Grown (SHG) and prepared to specialty coffee standards
- Locally roasted by Red Barn Coffee Roasters in Upton
